VOL. XX.

OWINGVILLE, KENTUCKY, THURSDAY, MARCH 16, 1899.

NO. 34.

Notice.

Having sold a half-interest in my business, and desiring to close up my individual affairs as speedily as possible, I earnestly request all those indebted to me to settle with me at once.

S. F. ARCHISON.

There was many a lettuce bed sowed the past week.

There were some days of very nice spring weather the past week.

Stoves, Tin- and Queensware offered very cheap at Ramsey & Co.'s to close out.

Bob Brother and George Dawson have purchased W. B. Arnold's car yard on Water Street.

Wm. T. Warner bought of John A. Tinscher a pair of large work mules for \$230.

Garden seeds of every description in bulk at Brother & Goodpaster's.

The fishermen are ready now for the weather and water to get right for sport with the fish.

Elder J. D. Hunter will preach at Jackson's school-house the first Sunday in April, and on Saturday night before.

T. S. Shroat will sell you Furniture, Buggies and Coffins cheaper than anyone. Cash or credit.

A good many tobacco beds were burnt the past week, beginning on Saturday, when the ground was generally full wet.

The farmers will have the opportunity to breed their mares to the celebrated stallion J. S. Brown at the same place on Upper Prickly Ash this year.

The celebrated Jersey Wakefield stage seed. For sale by Brother & Goodpaster.

John McKinnon bought of G. W. McKinnon the remainder of his lease (three years) of the "Uncle John" McKinnon farm, near Forge Hill, for \$600.

Elder Amos Kendall showed in this office Monday a beautiful quilt presented to him by the ladies of Cassidy's Chapel, Nicholas county, where he held a series of meetings.

Saddles and Harness, cheaper than you ever bought them before, at Ramsey & Co.'s.

Abby Dawson and W. P. Conner, Jr., have rented Geo. A. Peed's new lively stable building and will engage in the livery business. Mr. Dawson went to the city last week to purchase an outfit.

The Third Kentucky is expected from Matanzas, Cuba, soon to be mustered out at Savannah, Ga. This will be pleasant news for the families and friends of Bath county boys belonging to the Third.

If Brother & Goodpaster have not what you want in garden seeds, we don't know where you will find it.

Elder Albert Dawson will preach at White Oak the third Sunday in this month instead of the fourth. He will also preach at See's school-house Wednesday night, Mar. 22d, and at Fasset's school-house Wednesday night, March 29th.

Joseph Bloomfield left Tuesday for Louisville, where he will be married today to Miss Claudine Braun. He will locate in Cincinnati and run a store there for the Vic Bloomfield & Co. The latter's stock of goods has been moved from here.

I have a fine upright Piano, in perfect condition, for sale.

JAMES GILLON.

Last week Ott Archy swore out a warrant of arrest against young Jonas Warner, son of Boas Warner, of the mouth of Taylor's Branch, charging that Warner was losing his mind. Warner was brought here, tried by a jury and was discharged.

BAD LUCK.—Capt. Tom Rose, of the late 4th Ky. Regiment, played in bad luck at Morehead recently. He organized a company of State guards, but when the recruits were sworn in they elected Deputy Sheriff J. D. Caudill Captain. Rose declined the First Lieutenant offered him.

Now is the time to buy a plow and set of gears while Ramsey & Co. are selling cheap to close out.

COURT DAY.—Monday was the most business-like Court day for several months. The crowd was large. The merchants generally had a satisfactory trade. About 100 cattle were sold at strong prices. A good many mules and horses changed hands at better prices than for some time. Hogs were brisk at \$3.25.

All persons knowing themselves indebted to us please call and settle their accounts at once.

Resp., S. S. SLEASER.

Tobacco Sales.—J. M. Richart's purchases on Mink's Run, crops of J. B. Crouch and tenants John Fleming, Mart and Thomas Markland at 5c.

Nathan Sorrell and T. S. Robertson bought on lower Flat Creek the crops (about 17,000 lbs.) of Martin and Davis Sorrell at 5c.

Robertson & Stone, of Bethel, bought on East Fork of Flat Creek, Crump Bros. and L. N. Riddle's tobacco at 6c; Thos. D. Anderson's at 5c and 6c; George Woodward's at 4c.

Ramsay & Co.'s stock is diminishing rapidly under the low prices offered. Don't you need something in your line?

CHANGE IN MEETING DAYS.—Meeting day at Wyoming has been changed from the second to the first Sunday in each month.

On account of the change at Wyoming the meeting day at Grange City has been changed from the first to the second Sunday in each month.

THE COAL DISCOVERY.—Jas. Clark brought in Monday specimens of the canal coal discovered by him on Tom Johnson's farm, near Preston. Mr. Clark is very sure that he has made a valuable discovery and has been opening up the mine, which is deep from the top of a small mountain. They have already followed the vein 15 feet into the mountain. It is 4 feet 9 inches thick, with a solid limestone bed. An expert miner was there and pronounced the find genuine canal coal.

Now is the time to sow your Sweet Peas. You can get the seed at Brother & Goodpaster's. They have the finest variety we ever saw.

BANKRUPTCY PETITIONS.—Considering the era of financial depression through which the country recently passed it might have been expected that when the Bankruptcy law was enacted a very large number of petitions would be filed in bankruptcy court, but such has not been the case up to the present time. Henry S. Wood, of Mt. Sterling, has acted as attorney for all of the bankrupts in Montgomery and neighboring counties. He filed the past week petitions for R. J. Settles, of Montgomery Co.; J. W. DeBorde, of Morgan, and Morton Powell, of Powell.

ALWAYS IN THE LEAD. A NEW DEPARTMENT.—The New York Life Insurance Co. is out with a new policy this month that surpasses all life contracts issued heretofore by any life company in its liberality to the assured. No restrictions as to occupation, residence, travel, mode of living or manner of death, incontestable and unforfeiting from date of issue. Money loaned on second year if desired. In event of lapse time extended from two months to forty years or may be restored any time within two years. Over two thousand of these new policies were applied for during the first two days of March.

S. M. PARCELL, General Agent.

Tobacco Report.—George R. Snyder, of Pleasant Warehouse, Louisville, sends in the following report of the tobacco market:—

Louisville, Ky., March 10, 1899.

Under offerings of about 1050 bbls. each day this week (except Monday), the market has been active and strong, with good competition on all grades of Burley with the exception of the finer grades of leaf, which have been off a few bids from the prices obtained 10 days since. To give you an idea of how the prices have run on different grades, we quote you some sales made at our house yesterday. In J. W. Montjoy's sale from Montgomery county his flyings sold from \$5 to \$5.50; his tips and short red from \$6.40 to \$7.90; his leaf from \$10.75 to \$13.75. In Bridgforth & Pierce's crop, from Montgomery county, their flyings and trashes sold for \$5.40, \$5.50, \$7.50, \$7.90, \$8.80; leaf and lugs and short red sold at \$8, \$8.40, \$8.80, \$10, \$10.25, \$11.25, \$13, and \$14. Bridgforth & Clark, leaf and lugs sold at \$7.70, \$7.90, \$7.90, \$8.10, \$8.30, \$8.50, \$12.25 and \$12. In prize tobacco from this on until it is redried all grades should be priced with as little ease in mind as possible. We urge our friends to prize their tobacco grade and grade alike as near as they can place it in the bid. In this way you will receive better prices than should you use seconds and get a break of them in the sample.

J. T. HONAKER'S DEATH.—Died, at his home in Lexington, at 6 o'clock Thursday evening, of cerebro-spinal meningitis, after an illness of 48 hours, J. T. Honaker, in his 39th year of age. He contracted the disease while waiting on his chief clerk John Nolan, who died after a short illness. Funeral and burial private at 4 o'clock Friday afternoon at the Lexington Cemetery. Tilford was the only son of Cornelius W. and Mary Ashley Honaker. His father died August 16th, 1869, in Grundy Co., Missouri, when Tilford was less than 6 months old. His mother moved back here and made her home near Wyoming for several years, when she married her cousin David Honaker, who lived for a short time at Poplar Plains. From there they moved to Lexington. At the age of 18 years Tilford accepted a position with his uncle C. W. Honaker in the drug business here, where he clerked for three years. He developed into a fine business man. At his majority he returned to Lexington, where he engaged in the grocery business, which he made a success of, accumulating quite a competency. He built a handsome residence and had all the comforts that any one needs. He was a leading member of the Christian Church and his acts of charity were numerous.

A wife, nee Lula Lair, survives. They had but one child, a daughter, who died when about 2 years old. His mother, 3 half brothers and 2 half sisters survive.

THE GREATEST WEDDING. The newspaper reporters of the time of Alexander the Great, had there been any, would have had the heaviest day's work of their lives in converting the interesting events that marked the day Alexander was married. On that day, authenticated accounts tell us, no less than 20,202 men and women were made husbands and wives. Alexander had conquered Darius, of Persia, and he felt that this great achievement was important enough to be memorialized in a conspicuous manner. Imagine the pride of a conqueror who decides that it can be measured properly only by a wholesale giving and taking in marriage the like of which the world has never known.

Alexander himself married Statira, the daughter of the conquered King, and decreed that 100 of his chief officers should be united to 100 ladies from the noblest Persian and Median families. In addition to this, he stipulated that 10,000 of his Greek soldiers should marry 10,000 Asiatic women.

When everything was settled a vast pavilion was erected, the pillars of which were six feet high. One hundred gorgeous chambers adjoined this for the one hundred noble bridegrooms, while for the 10,000 an outer court was inclosed, outside of which tables were spread for the multitude. Each pair had seats, and ranged themselves in semicircles around the royal throne. Of course, the priests could not marry this vast number of couples in the ordinary way, so Alexander the Great devised a very simple ceremony. He gave his hand to Statira and kissed her—an example that all the bridegrooms followed.

This ended the ceremony. Then followed the festival, which lasted five days, and the grandeur of which has never been equaled since. —San Francisco Examiner.

OBITUARY.—Minnie Lee Cannon, daughter of Mr. and Mrs. Richard Stamper, was born Aug. 8th, 1875, died Feb. 23d, 1899. She was married to Oliver Cannon Sept. 27th, 1894. Funeral services were conducted by Rev. Chandler in the Methodist Church at Bethel, at which place she had united with the church in May, 1895. As soon as her serious condition became known her parents were summoned, but they did not arrive in time to see her alive. Physicians and friends did everything within their power to alleviate her sufferings, but without avail. In calling her away Death has severed many a tender tie. Her husband and little daughter have lost a devoted companion and mother, her parents a kind and faithful daughter, her brothers and sister a loving sister. For these things this is incomparably sad, she being in the prime of early womanhood, but comfort should come to them that no bitterness mingles with their sorrow. ***

Kentucky Crop Report.

Condition of Crops and Live Stock March 1st, 1899.

Replies were received this month from 153 correspondents, representing 98 counties.

It may be well to restate in this, the first report of the year, the boundaries of the sections into which the State, for the sake of convenience and accuracy, is divided and the reasons for the separation. The irregular contour of the counties makes it impracticable to divide upon straight lines in any given course. Again, it is advisable to separate the "dark tobacco" district in the western part of the State from the Burley district of the central and eastern parts. Likewise it is desirable to separate the counties in the eastern and southeastern portion, where the production of any crop rarely exceeds the home demand and where the percentage of increase or decrease affects in a small measure only the actual production of the State, from the other sections producing a large surplus. To meet all these varied conditions the following divisions appear to us as the best to be devised:—

The western section comprises 30 counties west of an irregular line drawn from the eastern boundary of Hardin county on the north to the eastern boundary of Allen on the south, the intervening counties of Letcher, Hart and Barren being placed in the western section. The central, or the more moderate, the north central section, embraces 40 counties lying east of the above-described boundary and northeast of an irregular line drawn from the eastern boundary of Lewis county on the north to the northeast of Lenoir county in the southeast, the intervening counties of Bath, Montgomery, Clark, Madison, Lincoln, Boyle and Marion being placed in the central section. The eastern or southeastern section is composed of the remaining 40 counties lying southeast of the above-described lines.

WHEAT. The condition of the wheat crop December 1st, the date of the last report, was 94, compared with average years. As set out in that report there was a lengthy interval between the early sowing and the late sowing wheat due to an unusually wet October, wheat sowing being suspended for a greater portion of the month. The early sown wheat attained a growth that promised to withstand any weather test to which it might be subjected. This promise has been realized, and at this date early wheat is generally reported in excellent condition. Late sown wheat was barely above ground at the close of winter, and the severe weather it has encountered, both in the early and latter parts of winter, has left it in a condition that may be aptly described as a "blue prospect." Whole fields now appear without a vestige of growth above ground and, while a few correspondents venture the opinion that the roots are uninjured, it will take some weeks of warm growing weather to develop the full extent of damage. As a rule there was an ample covering of snow during the extreme cold weather of February, but, falling as it did on an almost solid sheet of ice, the benign effects of the protection was in a measure lost.

Answers to the question "Has wheat suffered from any cause, and if so, what cause?" resulted in replies from 115 correspondents, of which number 97 state that wheat suffered from "freeze," and 18 say it has not been appreciably damaged during the winter.

Heavy rains, particularly in the western section, is another source of no inconsiderable damage.

The per cent of crop of 1898 still in the hands of farmers is estimated at 26. On March 1st, 1898, it was estimated that 17 per cent of crop of preceding year was then in the hands of farmers. On March 1st, 1897, a similar estimate showed 9 per cent of the old crop in farmers' hands.

The price of wheat March 1st averages 88c. On March 1st, 1898, the average price was 90c and March 1st, 1897, the price was 84c.

CORN. Estimate on the percentage of corn crop of 1898 still in farmers' hands give the amount at 42 per cent. On March 1st, 1898, the per cent of crop of preceding year in hands of farmers was 44.

LIVE STOCK. The trying effects of the unusually severe winter on live stock has to some extent been mitigated by the abundance of feed. Still, among young stock and stock unprovided with shelter, the loss has been heavy and the suffering intense. The heaviest loss has been with lambs and young pigs. Some correspondents estimate the loss of lambs at 35 per cent of the crop. Recent experience should impress upon farmers the economy of providing ample shelter for stock during the months of bad weather.

The condition of the various classes of live stock averages as follows: Horses, 91; cattle, 90; sheep, 89, and hogs, 90. The conditions March 1st, 1898, were 95, 95, 88 and 91 respectively.

Statistics prove that more people are brought to the grave by diseases of the kidneys and bladder than by any other disease.

Kidney trouble is in itself so insidious and deceptive that thousands have some form of it and never suspect it.

For many years medical science has been trying to discover some remedy that would positively overcome these dangerous troubles.

But not until recently was the discovery made. Dr. Kilmer, the eminent physician and scientist, after years of study and research, and after test on cases that never varied in the grand result, announced the discovery of Swamp Root, which has proven itself a most wonderful cure for all diseases of the kidneys and bladder.

While Swamp Root has proven such a remarkable success in curing kidney and bladder diseases, it has also proved equally invaluable in the cure of bladder diseases, rheumatism, liver and stom-

such troubles, and in the regulation and cure of all uric acid troubles.

If you water, when allowed to remain undisturbed in a glass or bottle for twenty-four hours, forms a sediment or settling, or has a cloudy appearance, it is evidence that your kidneys and bladder are in a state of irritation.

Swamp-Root has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief, and has proved so successful in every case, that it is a **RECIPE**

May take tea, two or three times a day, before and after meals, and at bedtime.

Do not eat rich food, or use any wine.

May commence with small doses, and increase to full dose, as the case may require.

This great remedy cures all uric acid troubles, and disorders due to the kidneys, bladder, and prostate gland, such as gravel, and all the bladder, groin, rheumatic, sciatic, and Druggist's cases, which the worst form of medicine will not cure.

It is pleasant to take.

Modern Science Recognizes

Modern Science Recognizes RHEUMATISM as a Disease of the Blood

There is a popular idea that this disease is caused by exposure to cold, and that some localities are infected with it more than others. Such conditions frequently promote the development of the disease.

but from the fact that this ailment runs in certain families, it is shown to be hereditary, and consequently a disease of the blood.

"Among the people and best known in the world is the name of Vancouver. He has always been prominently identified with the interests of that place. I was the first President of the Board of Trustees, and for a long time has been a Justice of the Peace. He says: 'I had been a sufferer of rheumatism for a number of years and the pain at times was very intense. I tried all the proprietary medicines I could think or hear of, but received no relief.

"I finally placed my case with several physicians and doctored with them for some time, but they failed to do me any good. Finally, with my

hopes of relief nearly exhausted I read an article regarding Dr. Williams' Pink Pills for Pale People, which induced me to try them. I was anxious to get rid of the terrible disease and bought two boxes of the pills, I began using them about March, 1897. After I had taken two boxes I was completely cured, and the pain has never returned. I think it is the best medicine I have ever taken, and am willing at any time to testify to its good merits."—*Bluffs (Ill.) Times*.

ANNOUNCEMENTS.

For County Judge.

TO THE DEMOCRATIC VOTERS OF BATH COUNTY.—I hereby announce myself as a candidate for the office of Judge of the Bath County Court, subject to the action of the Democratic party, and declare that I favor the following:

- 1st. An economical administration of the fiscal affairs of the county;
- 2d. The payment of all just and legal obligations of the county in the most speedy manner consistent with public interests;
- 3d. A reduction of expenses, including salaries of county officers;
- 4th. The further acquiring and taking up of all the remaining turnpike roads in the county and keeping them in repair;
- 5th. An economical and judicious expenditure of the turnpike fund, to the end that free turnpikes may reach the free legitimate conclusions and expectations and desires of the people.

Upon these issues I solicit your support. JOHN A. DAUGHERTY.

We are authorized to announce L. S. Rogers, of near Sharpburg, a candidate for the Democratic nomination for County Judge of Bath. Your support is solicited.

ANNOUNCEMENT.—To the Voters of Bath County: I am a candidate for the office of County Judge, subject to the action of the Democratic party, and if I should be nominated and elected will try to give my attention to the office, to do my duty to the best interest of the county, and as well to the poor as to the rich. Trusting to your good judgment in selecting your candidate, I am respectfully, your humble servant and fellow-citizen, D. S. TUCKER.

For County Superintendent of Schools.

TO THE DEMOCRATIC VOTERS OF BATH COUNTY.—I hereby announce myself a candidate for the nomination of School Commissioner of Bath county, subject to the action of the Democratic party. Your support is earnestly solicited. J. D. MYERS.

We are authorized to announce Woodson P. Perry a candidate for the Democratic nomination for County Superintendent of Public Schools.

THURSDAY, MARCH 16, 1899.

The Administration seems to be progressing with its policy in regard to Cuba. All the troops except 15,000 regulars will be withdrawn before May 1st.

JUDGE W. T. LAFFERTY and Hon. Claude M. Deha had a warm campaign for the Democratic nomination for Representative from Harrison county, but at the primary Saturday Lafferty ran away with the prize by 275 majority.

Drew's officers have raised an interesting question in the matter of the great naval victory at Manila Bay by filing claims for the extreme amount of head money on the grounds of defeating a force naval and land superior to Dewey's fleet.

It is a neck and neck race now between Great Britain and the United States as to which is the most of a billion-dollar country in Governmental expenditures. The former projects an expenditure of \$560,225,000 for the ensuing year.

The Democrats will hold the Third District convention at Winchester April 26th to nominate a candidate for Railroad Commissioner. There appears to be no body eager for the nomination, as the district is generally regarded as a Republican.

ITALY—"I'm going to rob you." China—"That is exactly." Italy—"If you don't apologize and fork over I'll pound you up and make you pay extra for the trouble."

China—"By coercion by the power I apologize abjectly."

FREQUENT rumors of the danger of a serious break down in Admiral Dewey's health appear in the newspapers, said to be derived from private persons well informed personally in regard to the matter. If it should occur now it will be due to excessive zeal on his part, as he has permission from the Administration to withdraw from active service for a long rest whenever he pleases.

GREAT BRITAIN proposes to stay in the international game of naval increase to the end. She sees the rise of other nations and goes there several better, remarking, however, that if the international disarmament congress, to meet soon at the request of the Czar of Russia, agrees that the nations shall stop naval increases or modify their programs, she will acquiesce to the extent of maintaining her position of relative superiority to any one or two of the nations. It would seem that the disarmament congress has a hopeless task before it.

THE leading insurance companies doing business in this State have been indicted at a number of towns on the charge of conspiring together to raise rates of insurance. Said companies have withdrawn their business from the towns where they are being prosecuted. The insurance companies are making a mistake. The extraordinary increase of the cost of insurance over the former days warrants the people in taking some proper steps to correct the wrong being done them, and the companies need a reformation among themselves and in their methods of doing business instead of willfully resenting just causes of complaint among the people who insure property and trying to coerce them. Indiscriminate hostility to capital and to corporations is destructive to business prosperity and progress, but much of that prevailing had its origin in the just resentment of the people at the same sort of capitalistic and corporate greed as that displayed by the insurance companies in putting up rates.

THERE is some talk of the Administration backing a candidate to beat Reed for the Speakership of the next House. The attempt would be a bold one and would require a lot of very brave hearts to back it. The mere suggestion of it brings to mind the convention of nice to tell the cat. Reed has no peer in the next House. His party has none superior to him in either integrity, ability or party usefulness. His so-called despotic methods in a man less able and foresighted would have meant political ruin, but time has amply vindicated him for Reed and shown to the public that instead of harmful despotism his methods were simply far-sighted wisdom. The superficial critics are scoring him now for not recognizing Gen. Wheeler on the last day of the recessession. When sober sense replaces mere sentiment it will be found that Reed acted wisely and established a precedent that all will approve of. Reed has been of incalculable benefit to his party, and what is far better, he has served the nation well despite his partisanship. He prevented the Congressional spendthrifts from appropriating many more millions than they did.

REPORT has it that Gov. Wm. O. Bradley will take a vacation for a few weeks to look out a location to remove to in some large city in the North or West when his term expires. Gov. Bradley's removal from the State would be a loss. As a partisan politician in former years his was not exactly an amiable personality to most of those of the opposite political faith. It is still believed that he practiced considerable demagoguery and made the 1895 campaign largely on false pretences of corruption in previous Democratic administrations. But it is believed that a just judgment will decide promptly that he has made an excellent Governor of the State, one quite the peer of his predecessors. In strictly political matters he has shown a lofty scorn for intrigue and that sort of craft resorted to by politicians in constructing a political machine, which is highly creditable to him as a clean, wholesome, just man, even if it might be regarded as an exhibition of political wisdom by the strictly political class. Then, too, he has displayed a rather unexpected independence in discussing public questions and has expressed opinions at an emphatic variance from those held by the great majority of the leaders and apparently of the masses of his party, which are also to his credit as a brave, free-thinking public man.

John Evans, aged about 79, died at his home Wednesday morning, 8th inst., of general debility. He leaves a wife and six children—five boys and one girl—all grown, to mourn their loss. His remains were taken to the Alfrey burying grounds, near Cogswell, Friday for burial. Funeral services were conducted at his late residence by Elder H. F. Martin, of this place. "Uncle John," as he was familiarly known, was as good a citizen and as honorable an old man as lived in this country. His aged wife and bereaved children have the sympathy of the whole community. May his soul find its resting-place in the Great Beyond.

Married, at the residence of the bride's father, Capt. Sim Crain, here, Friday, 10th inst., at 2:30 p. m., Miss Louie Crain to Prof. O. E. Vanvorheis, of Bellefontaine, Ohio. The bride is a charming young society belle of this town, was the leading teacher in the Christian Sunday-school, which institution will miss her very much. The groom was lately band and school teacher here, but for about four years he has been teaching and superintending the schools at Bellefontaine, O. As the wedding was kept very quiet, only few of the close relatives were in attendance. Elder H. F. Martin, of the Christian Church, officiated. The happy couple boarded the 3:40 west-bound express Sunday for Bellefontaine, O., where they will make their home. Our best wishes go with them for a long, happy and prosperous life, and being a most worthy couple we predict for them a very bright future. May joy and happiness ever attend them, is the wish of all who know them and especially the writer.
